With a proven ability to deliver high-quality mobile app solutions, I am enthusiastic about contributing my skills and expertise to dynamic projects, enhancing user experiences, and driving digital success.

KEY PROJECTS HANDLED

1) Everymind
Play store:
https://play.google.com/store/apps/details?id=com.everymind&hl=en&gl=US&pli=1
App store: https://apps.apple.com/us/app/everymind/id1480677960

Project Description: Everymind provides mental health support in user pocket, whenever they need it. Everymind at Work is provided by your employer, and focuses on improving employee happiness and productivity. Unlike other apps, it take an individual approach to mental health support rather than a one size fits all approach.

Technologies used - React Native, Apollo, Sentry for logs, GraphQL, Formik, Onesignal push notification, Typescript, Monorepo

2) Xplore
iOS: https://apps.apple.com/us/app/xplore-local/id1541114396
Android: https://play.google.com/store/apps/details?id=com.booniverse.xplore

Project Description: Xplore app is a digital infrastructure for towns. The Xplore platform gives towns the tools they need to promote local businesses, organisations and events. They set you up to transact online and reinvest the revenues generated from doing business locally. Create and publish local content, inform the public in real-time with push notifications and local alerts.
Discover local history and explore the great outdoors with interactive hikes, trails and self-guided tours..

Technologies used: React Native, GraphQL, Typescript, Apollo, Redux, Styled component, AWS, Firebase, OneSignal Push Notification

3) Mum&Baby :
Play store:
https://play.google.com/store/apps/details?id=com.imagineear.mumandbaby.android
&hl=en_IN&gl=US
App store: https://apps.apple.com/gb/app/mum-baby/id887373841

Project Description- Mum and Baby app has been developed with the NHS to navigate your choices for maternity care in England. From the start of pregnancy to early parenthood, this app provides so many features like set appointment date, explore maternity units near you, keep track of your appointments and make notes and so many.

Technologies used: React Native, Expo, PHP, Cache all the data in local storage, API integration to fetch data from Wordpress site, Animations, HTML to PDF
